

ALABAMA DAIRY WORKS FOR THE WORLD

Global demand for protein-rich dairy is rising.

Consequently, U.S. dairy exports have more than quadrupled since 2000, to nearly \$5 billion in 2016. Our top five markets are Mexico (\$1.2 billion), Southeast Asia (\$671 million), Canada (\$632 million), China (\$384 million) and South America (\$280 million).

That's good news because dairy exports create Alabama jobs and lift the state's economy.

Sources and methodology: 2016 data from the U.S. Department of Agriculture, U.S. Department of Commerce, U.S. Dairy Export Council, National Milk Producers Federation. Economic impact calculated using multiplier formulas from the U.S. Bureau of Economic Analysis. State data based on USDA estimates, not actual counts. National numbers exceed sums of states because interstate activity only appears in the national estimate.

WYOMING DAIRY WORKS FOR THE WORLD

Global demand for protein-rich dairy is rising.

Consequently, U.S. dairy exports have more than quadrupled since 2000, to nearly \$5 billion in 2016. Our top five markets are Mexico (\$1.2 billion), Southeast Asia (\$671 million), Canada (\$632 million), China (\$384 million) and South America (\$280 million).

That's good news because dairy exports create Wyoming jobs and lift the state's economy.

WYOMING DAIRY EXPORTS BY THE NUMBERS

10
dairy farms

0
dairy plants

47 Wyoming jobs
created by dairy exports

\$3 million
in dairy exports

\$5 million Wyoming
economic impact from dairy exports
